

***Let the Water Do the Work:  
Induced Meandering, an Evolving Method for  
Restoring Incised Channels***

**By Bill Zeedyk and Van Clothier**

## **Table of Contents and Interactive Appendices**

### **Chapter 1: Introduction**

- Stable Rivers And Floodplains
- Induced Meandering
- Incised Channels
- Present And Continuing Impacts
- Short Term Cures - Long Term Consequences
- The Evolutionary Process
- Ecological Benefits Of Induced Meandering

### **Chapter 2: Rivers and Floodplains**

- Introduction
- Natural Stream Function
- Meandering
- Stratified Alluvium
- Stream Power
- The Critical Role Of Vegetation
- Dominant Discharge and the Bankfull Channel
- Floodplain Processes and Bankfull
- Natural Channel Formation and Stability
- Geomorphic Channel Features

### **Chapter 3: Stream Classification**

- Introduction
- Morphological Classification
- The Rosgen Stream Classification System
- Dryland Streams Are Different
- Techniques Of Field Survey

### **Chapter 4: Incised Channels, Channel Evolution and Induced Meandering**

- Introduction
- Incised Channels
- Channel Evolution And Induced Meandering
- Induced Meandering

### **Chapter 5: Structures, Practices, and Construction Techniques**

- Introduction
- Lateral Control
- Vertical Control

### **Chapter 6: Reading the Landscape**

- Introduction
- Geology
- Geography
- Topography
- Soils
- Hydrology
- Ecology
- Human Influences Leading To Channel Incision
- Reading The Landscape Case Studies
- Field Worksheet For Reading The Landscape

### **Chapter 7: Project Design and Layout**

- Introduction
- Project Continuity
- Preliminary Assessment
- Select Project Reach Or Reaches
- Select A Reference Reach
- Conduct Appropriate Surveys
- Establish Geomorphic Goals
- Develop A Vision For The Restored Reach
- Consider Additional Treatment Options And Site Requirements
- Project Design
- Complete Treatment Inventory, Permits, And Clearances
- Implementation
- Project Demobilization
- Minimalist Induced Meandering Applied To A New Mexico Drylands Stream

### **Chapter 8: Monitoring, Modification, And Maintenance**

- Introduction
- Monitoring Methods
- Visual Inspection Of Structures
- Evaluating Structure Condition And Performance
- Prescribing Modifications and Maintenance
- Summary

### **Appendix**

- Appendix A - The Galisteo Watershed: Centuries In The Making
- Appendix B - Representative Valley Types Of The Southwest
- Appendix C - Representative Channel Types Of The Southwest
- Appendix D - [Stream Classification Field Sheets](#)
- Appendix E - Trimming Posts And Pickets
- Appendix F - [Field Worksheet For Reading The Landscape](#)
- Appendix G - [Induced Meandering Implementation Field Sheets](#)
- Appendix H - Project Planning And Implementation Checklist
- Appendix I - [Photo Monitoring Field Sheets](#)
- Appendix J - Resources
